

Non-Contact AC Voltage and Current Detector

Detects and pinpoints wide range Voltage and Current WIth Sensitivity Adjustment

Features:

- Non-Contact AC current detection from 200mA to 1000A
- Non-Contact AC voltage detection from 12V to 600VAC
- · Sensitivity adjustments to increase or reduce sensor trigger threshold
- · Current sensor detects current flow through shielded wires, conduit and metal circuit breaker/junction boxes
- · Complete with four LR44 button batteries and pocket clip

Applications:

- · Trace concealed wires in walls and floors
- · Identify "hot" wires
- · Trace current flow behind walls, in conduit, where voltage detection does not work
- · Sensitivity high enough to trip on low voltage HVAC or similar signal levels

Ordering Information:

DVA30Non-Contact AC Voltage and Current Detector
