

# FlowinSmart® WTSF/WXSF Solder Feeder

*June 2015*

# Product Overview

WTSF 80

WTSF 120

WXSF 120

## **WTSF**

***Weller Solder Feeder for Technology Line Family***

## **WXSF**

***Weller Solder Feeder for Performance Line (WX) Family***

## 1. Product Positioning

The FlowinSmart® WTSF and WXSf

- is a solder feeder that simplifies the operators work by freeing up one hand.
- can be connected to various Weller Soldering Stations which can be ordered with the FlowinSmart or which are already available at the customer bench.

## 2. Product Description

### FlowinSmart WTSF 80 /120

- to be connected to Weller soldering station supporting 80W /120W irons (WS 80 / WSD 81 / WD 1 / WD 2 / WD 1M / WD 2M / WMD / WR 3M / WR 3ME)
- 0,5mm-1,0mm wire

### FlowinSmart WXSF 120

- to be connected to Weller soldering station supporting 120W irons (WX Family)
- 0,5mm-1,0mm wire

## 3. Product USPs & Benefits

### One-hand operation

- Time saving
- Increased Productivity
- Cost reduction in plant

### Best performance

- Weller Tools/Irons
- Leveraging Weller stations
- Quality & performance consistency with existing product range

### Maximum Flexibility

- Weller station agnostic
- Multiple tools connectivity
- Feeder separate from station

### Size

- Footprint (smaller)
- Stackable (WX)

### ESD conform & CE certified

### Through motion sensor in the tool (WXSF)
